CAREER OBJECTIVE

Information Technology student at Bulacan State University seeking an internship placement to apply and grow my skills in web development, networking, and system security. Eager to contribute to real-world projects while gaining hands-on experience in a professional IT environment.

EDUCATIONAL BACKGROUND

Bulacan State University
Bachelor of Science in Information Technology — Expected Graduation: 2027

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, PHP, C#, Java
Web/Mobile Development: React
Cloud/Backend Platforms: Firebase, Supabase
Database Management Systems: MySQL
Desktop/GUI Development: JavaFX
Networking: Cisco Packet Tracer, Router & Switch Configuration (CLI), VLAN Setup & Inter-VLAN Routing, Static & Dynamic Routing (RIP, OSPF, EIGRP), IP Addressing & Subnetting, Firewall & ACL Configuration, Network Troubleshooting
Security: Role-Based Access Control (RBAC), Audit Logging, Network Support and Security fundamentals
Other Tools: Git, GitHub, Salesforce (Apex, Visualforce, Lightning Web Components), Spotify API

CERTIFICATIONS & TRAININGS

- Salesforce Supported Virtual Internship Program 2025 — SmartBridge Educational Services (April 2026)
- Network Support and Security — Cisco Networking Academy, Bulacan State University (April 2025)
- Networking Devices and Initial Configuration — Cisco Networking Academy, Bulacan State University (February 2025)
- Networking Basics — Cisco Networking Academy, Bulacan State University (February 2025)
- Exploring Networking with Cisco Packet Tracer — Cisco Networking Academy, Bulacan State University (December 2024)
- Introduction to IoT and Digital Transformation — Cisco Networking Academy, Bulacan State University (November 2024)

PROJECTS

eBigayPH — Capstone Project

- **Description:** A web-based donation and distribution management system for LGUs, NGOs, and charitable organizations in Bulacan, featuring QR-based beneficiary verification and immutable audit logging.
- **Role:** Developer, Quality Assurance(Capstone Team)
- **Tools/Technology:** Supabase, RBAC, QR Verification, Agile Scrum
- **Output:** Functional system prototype developed as a thesis capstone requirement.

Parfan Bakery Website — Freelance Commission

- **Description:** A website developed for Parfan Bakery as a paid client commission.
- **Role:** Developer (Freelance)
- **Tools/Technology:** React.js, CSS
- **Output:** Live client website delivered as a freelance commission.

Bulsu Gate System

- **Description:** A gate system that uses RFID technology to control access to the campus, allowing students and staff to enter and exit using their ID cards.
- **Role:** Quality Assurance
- **Tools/Technology:** PHP, MySQL, HTML, CSS, JavaScript
- **Output:** Functional RFID-based campus access control system.

Dental Clinic Management System

- **Description:** A system that manages the operations of a dental clinic, including patient records, appointments, billing, and inventory management.

- **Role:** Developer
- **Tools/Technology:** Java, MySQL, JavaFX
- **Output:** Desktop application with GUI for managing dental clinic operations.

Event Driven Programming Project

- **Description:** A project demonstrating event-driven programming concepts, allowing users to create and manage events through a GUI interface.
- **Role:** Developer
- **Tools/Technology:** Java, MySQL, JavaFX
- **Output:** Desktop GUI application for event creation and management.

PC Parts Inventory System

- **Description:** A system that manages the inventory of PC parts in a store, allowing users to add, update, and delete parts, as well as view current inventory.
- **Role:** Developer
- **Tools/Technology:** HTML, CSS, JavaScript, React, MySQL
- **Output:** Web-based inventory management system.

Student Management System

- **Description:** A system that manages student records, allowing the admin to perform full CRUD operations and view current students in the system.
- **Role:** Developer, Quality Assurance
- **Tools/Technology:** HTML, CSS, JavaScript, React, MySQL
- **Output:** Working web application with a MySQL-backed student records database.

Band Explorer

- **Description:** A web application that allows users to explore different bands and their music, using the Spotify API to fetch band information and music.
- **Role:** Developer
- **Tools/Technology:** HTML, CSS, JavaScript, React, Spotify API
- **Output:** Web application integrating the Spotify API for music discovery.

Personal Portfolio Website

- **Description:** A personal portfolio website that showcases projects, technical skills, and experience.
- **Role:** Developer
- **Tools/Technology:** HTML, CSS, JavaScript, React
- **Output:** Live website deployed via Vercel.

Budget Tracker

- **Description:** A web application that allows users to track their budget, using a MySQL database to store expense data.
- **Role:** Developer
- **Tools/Technology:** HTML, CSS, JavaScript, React, MySQL
- **Output:** Web application for personal budget tracking with a MySQL-backed database.

AR Fitness Gym — Freelance Commission

- **Description:** A website developed for AR Fitness Gym as a paid client commission.
- **Role:** Developer (Freelance)
- **Tools:** ReactJS, CSS
- **Output:** Live client website delivered as a freelance commission.

Smart Surfer — Freelance Commission

- **Description:** A website developed for Smart Surfer as a paid client commission.
- **Role:** Developer (Freelance)
- **Tools:** ReactJS, CSS
- **Output:** Live client website delivered as a freelance commission.

WORK EXPERIENCE / RELEVANT EXPERIENCE

Freelance Web Development — Parfan Bakery Website

Client Website Commission — October 2026

- Developed a website for Parfan Bakery on a commissioned basis as the sole developer.
- Built the site using React.js and CSS.

Freelance Web Development — AR Fitness Gym Website

Client Website Commission — October 2026

- Developed a website for AR Fitness Gym Website on a commissioned basis as the sole developer
- Built the site using React.js and CSS.

Salesforce Supported Virtual Internship Program — SmartBridge Educational Services

Virtual Internship (8 weeks) — Sep – Nov 2025

- Completed Salesforce Trailhead modules covering Salesforce Fundamentals, Data & Security Modeling, Declarative Automation, and Apex in Salesforce.
- Built hands-on experience with Visualforce Pages and Lightning Web Components (LWC).
- Earned Agentblazer Champion recognition for completing Agentforce Essentials training.
